Result (GPA): 10.0
MATH (A), ENG (A), MUS (A), DAN (A), HIS(A), GER (B)

EXPERIENCE

Developer, PeopleNet – Copenhagen

June 2023 – Present

As Developer at PeopleNet my responsibilities varies and depends on client needs. In general, I do full-stack development focusing on web-parts within the SPfx-framework. For my work I use tools and languages such as TypeScript, React JS, JavaScript, C# and HTML & CSS.

IT Student Worker, Testaviva – Copenhagen

November 2022 – March 2023

In my role as student worker I was in charge of automating a number of processes within Microsoft Power Automate. In short, TestaViva handles several clients every day guiding them in the process of creating a lasting power of attorney as well as other legal documents. To optimise everyday operations, I developed and maintained a framework within MS Power Automate that handled all lasting power of attorneys from our clients. In addition to this, I assisted users in IT-related issues and made sure IT-equipment was functioning and up-to-date.

Student Worker, K2Management – Aarhus

January 2021 – February 2022

As student worker at K2Management I took on several different tasks. Firstly, I was in charge of development, design and maintenance of digital applications in MS Power Apps. Furthermore, I developed automated solutions of HR-processes (hiring, salary negotiation) within MS Power Automate. Lastly, I assisted users in Sharepoint functionality and project execution.

Office Assistant, AUH – Aarhus, Skejby

January 2021 – February 2022

Updating journals for patients before and after anesthesia/surgery

Udtalelse

Mellem

Arbejdsgiver
TestaViva

og

Medarbejder
Gustav Meding

Gustav har været ansat som studemedarbejder i Udviklingsafdelingen hos TestaViva fra november 2022 til udgangen af marts 2023.

Gustavs arbejdsområder har været mange og varierende, men fælles for alle opgaverne har været Gustavs utrolige gå-på-mod og positive attitude. Gustav er gået til alle opgaver med en beundringsværdig ihærdighed. Han har bl.a. varetaget opgaver som vedligeholdelse og udvidelse af vores Microsoft RPA-robotter, opsætning og konfigurering af vores self-hosted password manager, vedligeholdelse af kode-dokumentation, general IT-support til vores medarbejdere, opsætning af netværk, op kabling af borde, og general vedligeholde af vores hardware.

Gustav udviser en stor forståelse for tekniske systemer, og har en god evne til at overskue komplekse opgaver og holde dem simple. Han har løst alle de opgaver han har påtaget sig, og generelt vist stort overskud, selv når det var komplekst og når der ikke var nogle at sparre med.

Gustav er vellidt af alle på kontoret, og med hans friske og positive sind, har han altid tilføjet positivt til stemningen. Alt i alt har det været en fornøjelse at arbejde sammen med Gustav.

Jeg kan derfor kun give Gustav mine varmeste og bedste anbefalinger og I er meget velkomne til at kontakte mig på 28 87 28 19 hvis I vil have ovenstående uddybet.

To Whom It May Concern

Gustav Meding worked in K2 Management from 28. January 2021 until 31. January 2022, as a student worker in the HSEQ, Quality Management department reporting to Thomas Broe, Director HSEQ.
Gustav has undertaken many different tasks and always performed them with good ethics; he was well respected in the entire organisation for his work and holistic approach. Gustav has a great sense of humour and is comfortable to be around.

Gustav was co-responsible for ensuring that the Non-Conformity Reporting system called "Make It Better" is continuously developed and maintained in the Microsoft Flow app. Furthermore, Gustav was responsible for reviewing, handling, and implementing the suggested improvements into the business processes certified according to ISO 9001;2015

Furthermore, Gustav was involved in developing the HSEQ SharePoint site including setting up automated workflows, changing and debugging Power Apps across the SharePoint platform. As a part of his SharePoint tasks Gustav has been involved in training and supporting users worldwide and assisted with general updates of the company internet and HSEQ platform.

Based on input form the Health and Safety organisation Gustav assisted in setting up a Health and Safey survey that enabled the Health and Safety organisation to collect relevant information across the organisation.

Generally, Gustav always managed any task given to him and he also proactively solved versatile ad-hoc tasks across departments in a well organised and reliable way. Gustav was flexible and willing to work on any task assigned to him.

Gustav would be a great asset for your company and has my highest recommendation. If you have any questions or wish to discuss our recommendation further, please do not hesitate to contact us.
