Copenhagen / Denmark | +45 60 19 40 30 | meding97@gmail.com | <https://www.linkedin.com/in/gustavmeding> | <https://github.com/Ghmeding> - current project: BoligAdmin

SUMMARY

Results-driven Software Engineer with a MSc in Software Development Technology and over 2+ years of production experience building scalable, high-concurrency backend systems. Strong background in AWS serverless infrastructure and Object-Oriented Programming, with a proven track record of optimizing large-scale data workflows and resolving critical production bottlenecks. A team player with experience in technical recruitment and stakeholder management, eager to leverage expertise in Java, TypeScript and Golang to drive innovative backend solutions. Values honesty, personal accountability and keeping commitments when working within a team.

TECHNICAL SKILLS

- Languages:** Java, TypeScript, Golang, C# (Familiar), F# (Familiar), C (Familiar)
- Cloud & Infrastructure:** AWS (Lambda, Step Functions, AppSync, DynamoDB, API Gateway, ECS, ECR, CloudWatch, Cognito, IAM, Secret Manager), AWS CDK, Spring Boot Cloud, Rabbit MQ
- Frameworks & Patterns:** Spring Boot, React, .NET Core, Node.js, Hexagonal Architecture.
- Databases:** MySQL, PostgreSQL, DynamoDB (NoSQL), JPA.
- DevOps & Tools:** CI/CD Pipelines, Docker, Gradle, Postman, Git, Playwright.
- Core Competencies:** Object-Oriented Programming (OOP), Parallel & Concurrent Programming

PROFESSIONAL EXPERIENCE

DELOITTE, CLOUD & ENGINEERING

Copenhagen / Denmark

Consultant

Feb 2026 - Present

Analyst

March 2025 - Feb 2026

Associate Analyst

April 2024 - March 2025

Deloitte Plans (Varde Kommune – Ikast Kommune)

- Led the implementation of a scalable serverless SaaS integration between a route planning solution and the ‘Rapidis’ service using AWS Lambda, Step Functions, AppSync (GraphQL) and DynamoDB to optimize home care logistics for Danish municipalities.
- Optimized system performance and data throughput by architecting parallel execution workflows and data modeling in DynamoDB significantly reducing execution time for large-scale routing datasets.
- Established robust DevOps practices by implementing Infrastructure as Code (IaC) via AWS CDK and managing CI/CD pipelines, containerized services (ECS/ECR), and comprehensive monitoring through CloudWatch.

Core technologies:

- AWS Services: Lambdas (Typescript), AppSync, Step Functions, DynamoDB, ECS, ECR, Cognito, IAM, CloudWatch
- Docker Containers
- CI/CD pipelines

The Agency of Family Law (Familierektshuset)

- Designed and developed two custom C#/.NET console applications for automating case management workflows for adoption, legal guardianship, and name changes.
- Developed integration between KMD Workzone and the Danish Court Administration’s REST API, automating the extraction of sensitive case data and generation of XML/PDF reports.
- Managed the full development lifecycle, from gathering requirements with end-users to server deployment and task scheduling, ensuring alignment with public sector IT architecture.

Core technologies:

- C# / .NET Core
- Playwright
- REST API(s)
- Web-scraping

The Danish Business Authority – Nemhandel Infrastruktur (ERST) - Designed and implemented an asynchronous status-tracking system, utilizing thread management to handle concurrent workloads. This eliminated external service dependencies and improved scalability, preventing system freezes during third-party outages while ensuring consistent reporting for core business validation. - Modernized legacy components toward a <i>Hexagonal Architecture</i>, improving maintainability and decoupling business logic from external dependencies to facilitate easier testing and future migrations. - Resolved production deadlocks by implementing network timeouts and exponential backoff strategies. This prevented high-impact queue stalls during TLS-handshake failures, ensuring continuous processing of the queue and fault tolerance. - Redesigned relational database schemas and implemented JPA, while optimizing query performance for queue processing.		Core technologies: - Spring Boot (Java) - JPA - Gradle - Docker Containers - PostMan - REST API(s) - MySQL
Leadership and Team Engagement - Conducted 30+ comprehensive interviews, evaluating candidates through technical cases and personality testing to support organizational growth and talent acquisition. - Managed and presented weekly internal meetings for 12 months, coordinating sales/staffing updates and fostering a positive team culture through public speaking and fun Friday events.		
IT UNIVERSITY OF COPENHAGEN		Copenhagen / Denmark
<i>Teaching Assistant – Practical Concurrent and Parallel Programming</i>		<i>Sep 2024 - Jan 2025</i>
- Selected as a Teaching Assistant based on academic performance, providing expert feedback on parallel execution patterns, thread synchronization, and performance optimization. - Facilitated technical instruction and code reviews, guiding students through advanced Java concurrency models and memory safety.		
PEOPLENET		Copenhagen / Denmark
<i>Student Developer</i>		<i>June 2023 – April 2024</i>
- Developed frontend SPFx solutions for various clients, including the Danish Defence (Forsvaret), by translating complex business requirements into features. - Translated business requirements into technical solutions through direct client dialogue and requirement specification, collaborating closely with stakeholders in agile development cycles.		
EDUCATION		
IT UNIVERSITY OF COPENHAGEN		Copenhagen / Denmark
<i>Software Development Technology (MSc)</i> Thesis: Energy Consumption in Web Applications: A Comparative Analysis of Languages, Frameworks, and Related Technologies, Grade: 12/A+		<i>Jan 2025</i>
YONSEI UNIVERSITY – Exchange semester – College of Computing (Seoul, South Korea)		<i>Feb 2022 - July 2022</i>
AARHUS UNIVERSITY		Aarhus / Denmark
<i>Information Studies (BSc)</i> Thesis: Examining the role of IT within the Danish Primary School and its impact on teaching, Grade: 12/A+		<i>Aug 2019 - July 2022</i>
LANGUAGES Danish – native English – professional German - beginner		
INTERESTS Jazz-guitar, endurance-sports and hiking
